INSTRUCTIONS

1926 AUTOMATIC

## INTRODUCTION

To name each model, we looked back in time to find important moments in the history of horology to acknowledge those milestones

Mankind have been exploring the underwater world for centuries, and 1926 was a game changing year for all sea explorers. Made with a hermetically sealed case for optimal protection the first waterproof wristwatch marked a major step forward - making timekeeping underwater an everyman luxury.

Our first diver is a humble celebration of that remarkable achievement. We hope that our 1926 At'sea will take you on your very own adventure, both below and above the big blue ocean.

For us, Vintage is not just a reference of style - it is also the journey to actually becoming vintage.

The journey ( Life ) will take you through eventful moments and memorable days to occasions that change your whole perspective

We hope that one day your About Vintage watch will help you bring back memories of the special times in your life.

## SPECIFICATIONS

Go to [www.aboutvintage.com](http://www.aboutvintage.com) for warranty information

## HOW TO SET TIME

1. Unscrew the crown counterclockwise and pull out to second click position.
2. Turn the crown counter clockwise to set hour and minutes hand.
3. Push the crown back into normal position.
4. Always securely screw in the crown.

You do so by pushing the crown towards the watch while screwing it clockwise until it's 100% tight.

**If this is not done correctly you risk that moist and dust will enter your watch!**

## HOW TO SET DATE

1. Pull out the crown to the first click position.
  2. Turn the crown counterclockwise for date setting.
- \* Do not set the date between 9:00 P.M. and 4:00 A.M. as this will cause a malfunction.

## HOW TO WIND UP THE MAINSPRING

1. Rotate the crown clockwise at normal position.
2. Wind turning the ratchet wheel screw 8 times. It will start to move naturally after shaking slightly.  
(with winding machine. Full wind up conditions  
rotary speed : 30 rpm Operating time : 60 minutes.)

## ACCURACY

1. Static Accuracy : -20~+40 seconds per day

## **FOR THE TRUE GENTLEMAN AND WOMAN**

We are profoundly grateful.  
Thank you for your support.

Take good care of your new timepiece.  
Make moments, give it history  
- let it become vintage.
