1956 MARINE QUARTZ

INTRODUCTION

To name each model, we looked back in time to find important moments in the history of horology to acknowledge those milestones

In the 1950s, the world of diving was forever changed with the introduction of the first purpose-built dive watches. These timepieces were not just accessories; they were critical tools that divers relied upon for their safety and timing underwater.

The 1956 Marine Automatic is a tribute to this transformative era, capturing the spirit of innovation and adventure that defined the golden age of dive watches.

For us, Vintage is not just a reference of style
- it is the journey to becoming it.

The journey (life) will take you through
eventfull moments and memorable days to
occasions that change your whole perspective.

We hope that one day your About Vintage watch will help you bring back memories of the special times in your life.

SPECIFICATIONS

Caliber:	TMI VH31 (Sweep seconds)
Battery / Battery life:	SR920SW (recommended) Approx. 2 years
Glass:	Domed Sapphire Crystal
Water Resistance:	20. ATM - Water tested to 200 Meters Suitable for diving

HOW TO SET TIME

1. Unscrew the crown counterclockwise and pull out to first click position.
2. Turn the crown to set hour and minutes hand.
3. Push the crown back into normal position.
4. Always securely screw in the crown.

You do so by pushing the crown towards the watch while screwing it clockwise until it's 100% tight.

If this is not done correctly you risk that moist and dust will enter your watch!

FOR THE TRUE GENTLEMAN AND WOMAN

We are profoundly grateful.
Thank you for your support.

Take good care of your new timepiece.
Make moments, give it history
- let it become vintage.
