1964 HORIZON AUTOMATIC

INTRODUCTION

To name each model, we looked back in time to find important moments in the history of horology to acknowledge those milestones

In 1964 Seiko became the official timekeeper of the Summer Olympics. This marked an important development in how Japanese watchmaking was perceived. From this point, Japanese watch making was internationally acclaimed, and has since then become one of the world's leading nations in watches.

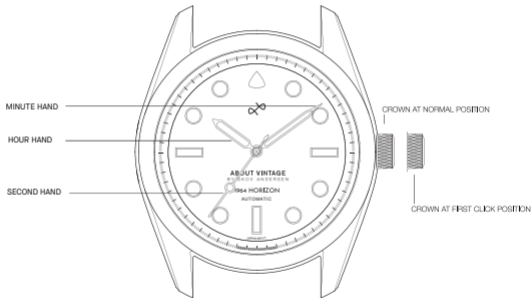

The 1964 Horizon bears references to the history of Japanese design, with simplicity and functionality as its main factors. Being a true versatile watch for both sport and cocktails, the 1964 Horizon is made as a do-it-all watch for any occasion.

For us, Vintage is not just a reference of style - it is also the journey to actually becoming vintage.

The journey (Life) will take you through eventful moments and memorable days to occasions that change your whole perspective.

We hope that one day your About Vintage watch will help you bring back memories of the special times in your life.
